WAXING

We use Italwax for all of our waxing treatments. Italwax offers professional cosmetics for waxing produced in compliance with the modern and classic Italian formula under strict supervision of its private, environmentally friendly laboratory in Milan. The factory is fitted with the newest German and Italian equipment that keeps intact their natural and organic raw materials used during production process. All Italwax waxes have a high adhesiveness (the ability to securely engage with hairs), which makes the hair removal procedure most effective, fast, safe and relatively painless.
